No. 07-3384-CV-S-RED-H

Petitioner, an inmate confined at the United States Medical Center for Federal Prisoners, has petitioned this Court for a writ of habeas corpus. The petition has been referred to the undersigned for preliminary review under 28 U.S.C. § 636(b). Because petitioner is entitled to no relief, it will be recommended that leave to proceed in forma pauperis be denied.

A review of the files and records in this case establishes that the two-thirds mandatory parole date has been placed in petitioner's prison records, and that he currently is classified with a

low security level. This is the level to which he is entitled. There is no legal basis for petitioner's request for immediate parole as a penalty for failure of the Bureau of Prisons to act earlier.

Counsel for the petitioner has filed a Motion to Withdraw. Because there are no issues presented for which relief is appropriate, the motion is granted. ¹

For the foregoing reasons, it is, pursuant to the governing law and in accordance with Local Rule 72.1 of the United States District Court for the Western District of Missouri,

RECOMMENDED that petitioner be denied leave to proceed in forma pauperis, and that the petition herein for writ of habeas corpus be dismissed without prejudice.
